

In the claims:

Please amend the claims as follows:

1. (currently amended) A device for display of gifts suitable for mailing the gift comprising:

a gift holding box, said box having a transparent surface, wherein said gift holding box includes a transparent top section and a transparent bottom section;

a mailing box into which said gift holding box nests, said mailing box having a cutout, wherein when said gift holding box is inserted into the mailing box, a viewer may look through said cutout, through said transparent surface and view an item contained within said gift box; and

a removable opaque panel fitting inside the mailing box over the transparent surface of the gift holding box, said panel retained within said mailing box covering said cutout thereby blocking the cutout.

2. (original) The device of claim 1 further including a display panel inside of said gift box viewable through the window when the opaque panel is removed.

3. (original) The device of claim 2 further including a metal sculpture mounted on the display panel.

4. (original) The device of claim 1, wherein said removable opaque panel includes printing.

5. (original) The device of claim 1, wherein the mailing box includes printing.

6. (previously presented) The device of claim 1, wherein said gift holding box is rectangular.

7. (previously presented) The device of claim 1, wherein said gift holding box is entirely transparent and six-sided.
